<https://github.com/Srishtiahuja19> LUDHIANA

Aspiring Data Analyst with a strong background in programming and a passion for turning raw data into meaningful insights. Skilled in uncovering trends, solving business problems, and supporting data-driven strategies through clear visualizations and analysis.

EDUCATION

CHITKARA UNIVERSITY	COMPUTER SCIENCE AND ENGINEERING CGPA=7.9 (2022-2026)
BHARTIYA VIDYA MANDIR	SENIOR SECONDARY EDUCATION(12th CBSE) Physics,Chemistry,Maths 80% (2022)
BHARTIYA VIDYA MANDIR	SECONDARY EDUCATION(10th CBSE) 82% (2020)

ACHIEVEMENTS AND CERTIFICATES

-
- Accathon-Building a Unicorn Coding Ninjas (1st runner up).
 - Rotaract Club Member
 - HackerRank:Python Basic
 - HackerRank:SQL Basic
 - IBM: AI FoundaZon for Everyone
 - IBM:Machine Learning
 - CerZficate in Excel

PROJECTS

-
- ChatBot(Developed an intelligent chatbot powered by LLaMA (Large Language Model Meta AI) to facilitate natural language interacZons)
 - TWITTER SENTIMENT ANALYSIS(processes tweets using NLP techniques and classify them as posiZve and negaZve using LogisZc Regression.)
 - MUSIC STORE DATA ANALYSIS(Used SQL to analyse a music store database, uncovering insights on sales trends, customer behaviour and top performing arZsts)
 - CREDIT CARD FRAUD DETECTION(Developed a Credit Card Fraud DetecZon system using NumPy and pandas to preprocess transacZon data and LogisZc Regression to classify fraudulent transacZons.)
 - HEART DISEASE ANALYSIS(Developed a Heart Disease Analysis project using pandas for data manipulaZon, Matplotlib and Seaborn for visualising correlaZons and trends, to idenZfy key factors influencing heart disease.)

SKILLS & ABILITIES

Programming Languages: Python,Java

Database Management Systems: MySQL

Web Development: HTML , CSS, JavaScript

Libraries / Frameworks: Pandas, Numpy, Seaborn,Matplotlib

Machine Learning: Regression, ClassificaZon, Clustering, Neural Networks, Deep Learning

Data VisualisaZon & BI Tools:Power BI

Soh Skills: Public Speaking, Leadership,Interpersonal Skills,Team Management
